PROSIRIUS is a specialist communication systems and technology company based in Cape Town South Africa.

We have, for many years provided our select corporate client base with a complete matrix of unified collaboration solutions, technologies and services ranging from high definition video conferencing and audio-visual systems, simulated training centers, control systems and even outdoor media displays

PROSIRIUS is one of South Africa’s largest fully authorized Crestron & Polycom channel partners. We work in concert with the worlds leading companies and brands to implement systems that ensure service quality and operational efficiency.

With close on 20 years experience in the industry, we offer a wealth of expertise with an astute ability to identify, quantify and qualify specific requirements for every communication or presentation environment, then design and implement a fully integrated tailor-made audio-visual communications solution

We remain up to date with the latest industry technological advancements - keeping our customers informed and effortlessly ahead in terms of effective presentation communication technology strategies

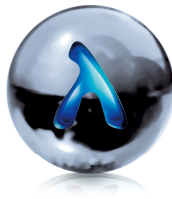

PROSIRIUS has a complete national network infrastructure in South Africa - carried through to our neighboring states such as Namibia, Botswana & Swaziland. We are a true example of how effective collaborative communications can work – no matter where you are in the world.

One of our key offerings is to provide our customers with an on-site technician to take care of all matters audio-visual – i.e. setting up equipment prior to meetings or presentations, scheduling rooms, checking & maintaining equipment – coordinating and connecting international video conferencing sessions and assisting with general technical problems. We assess and analyze your requirements at no charge– then put forward a proposal

PROSIRIUS also provides a full range of spares and we have access to fully authorized repair centers endorsed by the respective manufacturers in most major metropolitan areas

Our client base includes the likes of Metropolitan Life; Momentum Life; Sanlam; Old Mutual; Engen; BP; Shell Petroleum; Investec; Netcare, Citadel; Aspen Pharmacare; Foschini Limited; National Brands; Computer Sciences Corporation; Coca-Cola, and many other blue-chip companies.
